CR 9318 – Additional Functionality of Addon Setup

Addons with new setup

Hourly0 – Existing Payroll Calculation

Set Rate Option = blank

Sequence = 4

Use Rate Option = 0

$18.23 + .91 + .56 = 19.70$

If you choose option 1 it will use the final pay rate that includes positions and all addons that set rate.

Hourly1 – Final addon adjusted pay rate

Set Rate Option = blank

Sequence = 4

Use Rate Option = 1

$18.23 + .91 + .56 = 19.70$

If you choose option 2 it will pull an intermediate rate based on the sequence of the addon, only including addons that set rate.

Hourly2 – Intermediate-Seq less than addon being computed

Set Rate Option = blank

Sequence = 4

Use Rate Option = 2

$18.23 + .91 = 19.14$

If you choose option 3 it will use the base rate of the addon without including any addons that set rate.

Hourly3 – Use original base addon amount

Set Rate Option = blank

Sequence = 4

Use Rate Option = 3

18.23
